

Project 3 – Star Gazing – Due January 30

Winter is a great time to do some stargazing. For this project you will need to identify and observe 3 constellations in the night sky (grade 5 and 6 boys need to identify and observe 4 constellations). You will also need to list the 8 phases of the moon and identify the phase of the moon on the night you go stargazing.

Constellations observed	Date	Time
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

8 Phases of the Moon

Phase of Moon observed	Date	Time
_____	_____	_____

Psalm 19:1-4

The heavens proclaim the glory of God.
The skies display his craftsmanship.

Day after day they continue to speak;
night after night they make him known.

They speak without a sound or word;
their voice is never heard.

Yet their message has gone throughout the earth,
and their words to all the world.

Detach and Return by January 30

Project 3 – This project can be completed together with an adult or friend.

Name of Boy _____ Date Completed _____

Name of Supervising Parent/Guardian _____

Signature of Supervising Parent/Guardian _____

Landmark Boys Club Newsletter –January 9, 2019

It is hard to believe that the first half of the Boys Club year is over. It has been good to be a part of such an exciting group. I am also pleased to see how many of the boys are challenging themselves with the different projects. Please find Project 3 on the opposite side.

Please remember to check the schedule so that boys dress for the activity they will be doing. All schedule information can be found on the schedule included with your registration information pack.

The ice rink at the church is ready for use so we will be playing broomball and/or shinny hockey for Outdoor Activity during cycle 3 and 4. Please remember to send boys with helmets, skates (if they have), sticks (if they have) and warm clothing when they are scheduled for "Outdoor Activity." We require that all boys wear a helmet when playing on the ice.

God Bless,
Nathan Plett
Boys Club Leader
